Technical advices are also supporting for environmental business NGOs

Local governments established NPOs for environmental international cooperation

Major example

- Kita-Kyushu Intl. Technology Cooperation Assoc.(KITA)
(Established by Kitakyusyu-city in1980) (JFGE grant in2011~2013)
- International Lake Environment Committee Foundation (ILEC)
(Established by Shiga prefecture in 1986) (JFGE grant in2013~2015)
- International Center for Environmental Technology Transfer(ICETT)
(Established by Yokkaichi –city in1990) (JFGE grant in2012~2014)

Casefile of ICETT activities

Aim to matching between environmental business in developing countries and local companies in Yokkaichi,

- ✓ Having a seminar , invited relevant parties of partner country(Indonesia)
- ✓ Making a delegation, having matching events in partner countries(Thailand, Indonesia, China, Taiwan etc.)
- ✓ Research local situation in partner countries

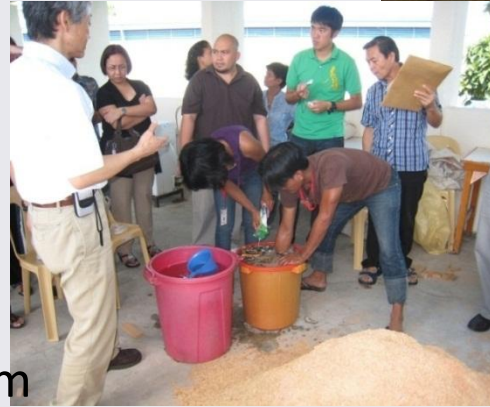

Casefile of activities of KITA

Establishment of the waste management system in Metro Cebu, Philippines

Aim to enlarge compost system developed by company in Kitakyusyu city,

- ✓ Distribute compost making buckets to local communities
- ✓ Educate local people for compost making
- ✓ Training city government employees
- ✓ Support to construct compost trading system

Supporting inter-city exchange project in Hải Phòng, Vietnam

Research industrial situation in partner city and send a corporate mission of common sector companies in Kitakyusu, have seminars and business meeting.

In the result, some joint business and Contract manufacturing projects were reached agreement.

集塵機の製造委託(鞍山本工作所)

バイオ・トイレ
共同事業化
デモ機完成し
ハロン湾で供
用試験良好
その後12基受
注
(鞍山アタカ)

Local governments itself also try environmental international cooperation through technological capability of companies in their area

JFGE activities for corporation-environmental NGOs partnership

(1) Activity Report Meeting and networking events

As an opportunity of matching corporations and environmental NGOs, JFGE holds conferences due to reporting JFGE granted NGOs projects and learning casefiles of corporation-NGOs cooperation projects.

Recently in Japan, companies are interested in implementing partnership project in which their employees and their families get involved NGO activities.

In 2015, The Activity Report Meeting is held in Eco-Products exhibition.

We are looking forward to your participation!

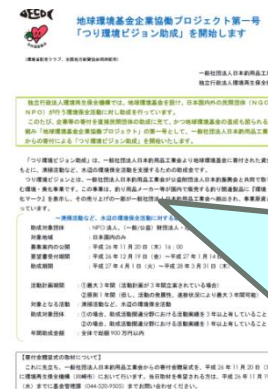

(2) JFGE started “Corporate partnership project” in which JEGE provide grant under the name of donated company.

Based on donation of company/association, JEGE calls for applicant, decides grant destinations, provides grant under the name of donated company/association, and manages accounts.

Through this system, companies can build up public-interest activities as same as they establish their own environment subsidization foundations.

From 2015, by the donation of JAPAN FISHING TACKLE MANUFACTURERS ASSOCIATION, “Love Blue grant” for water environment was started.

JFGE makes a press release when we start accepting applications and decide grant.

Thank you!
